

Jupiter is in House 12

- Jupiter in XII house goes by this saying "bin maange moti mile aur maange mile na bheek." Which means when this individual keeps on asking for something, they never get it. But as soon as they stop asking for it, they receive it immediately. When they let go is when blessings are showered on them. When this individual fails in something, that's when divine blessings shower on them. Applies to VIII House Jupiter as well.
- This individual's earnings are equivalent to their expenditure.
- They can be troubled because of debt.
- Can have nose related issues.
- Do not wear beaded chains around your neck.
- Has drishti on IV, VI & VIII House.
- IV drishti gives the individual luxury and comforts in life. It also blesses them with inherited property and a good mother.
- VI drishti makes it favourable for the individual to win court cases. It also protects from debt and diseases.
- VII House drishti lessens the difficulties and misfortunes in an individual's life.

Malefics

- A classic example of Jupiter acting malefic is when an individual has Tula lagna (ascendant) horoscope. Certain houses in your houses are called the trishdaya house which are III, VI & XI which are the houses of different types of difficulties in your life. In Tula lagna horoscope, Jupiter becomes the house lord for III & VI House. So, it causes more harm than good. In this particular case, Jupiter which is a natural benefic planet turns into a functional malefic planet.

Remedies

- Wear gold
- Wear yellow coloured thread around your neck.
- Braid your hair into a knot (sarr par choti).
