

Longevity

Venus

### Venus is in House 8

- No planet is considered benefic in this House; this is not a good position for Venus as it gives rotten and poisonous results.
- The native always keeps pitying themselves.
- The native will not have a happy married life.
- The male native will have a lower sperm count; they desire for a good sex life but these desires are not fulfilled.
- For a male native, his wife will be of stern behaviour, highly irritable and short tempered. The wife will not talk sweetly to her husband and her husband's behaviour will be the sole reason for it as he will irritate his wife. She will always utter something evil or negative (comparison with jali mitti ki chandal aurat).
- This placement hampers the native's wife's health.
- In case the II House is empty, this native should never get married before they are 25 years old; this will result in the death of their spouse.
- This native should never take guarantee or stand as a witness for surety for anyone; this can get the native into big troubles.
- During Venus's time period, it can cause sudden loss for the individual.
- Not a good placement for female natives as it can cause molestation or health issues like PCOS/PCOD.
- If one is associated with astrology, occult, manufacturing, taxes etc. This placement doesn't cause too much trouble.
- In-laws can be good and supportive to the native.
- Can contract diseases related to reproductive organs.
- This individual will profit after someone passes away in the family.
- Can be lucky when it comes to winning money at casinos or via lottery.
- Can receive money all of a sudden without doing much hard work.

### Remedies

- Never accept any donations or gifts, especially of clothes.
- They must visit places of worship, pray well and bow their heads in reverence to the deity.
- Throw a copper coin or a blue flower in the gutter or a dirty canal for 10 consecutive days.
- Should wash their private parts with curd, at least every alternate day. (this is a universal remedy for sexual problems).
